

MSD's Human Health Medicines

MSD's product portfolio includes prescription medicines for a number of conditions which significantly impact the quality of life and long term health of hundreds of thousands of people in Ireland. These include leading treatments for osteoarthritis, cardiovascular disease, diabetes, HIV/AIDS, hepatitis C, osteoporosis, asthma and many others.

Further details including prescribing information for all products available from MSD can be viewed on www.medicines.ie which is published by the Irish Pharmaceutical Healthcare Association.
